Procedure(s)

Our greatest concern is the well-being of your pet. Before putting your pet under anesthesia, we will perform a pre-anesthetic or pre-surgical examination. However, many conditions, including disorders of the liver, kidneys, or blood are not detected unless blood testing is performed.

To avoid potential problems, and further protect your pets health and safety, we highly recommend blood screening prior to anesthesia or surgery.

Our in-house laboratory is fully equipped and staffed to perform these tests.

The cost of the tests recommended for your pet are \$_____.

_____ Yes, I want my pet to have the recommended pre-anesthetic blood screen.

_____ No, I do not want my pet to have the recommended pre-anesthetic blood screen.

I understand the risks of anesthesia and I give the Emergency Animal Clinic permission to place my animal under anesthesia. I authorize the use of appropriate anesthetics, and other medications, and I understand that hospital support personnel will be employed as deemed necessary by the veterinarian.

I understand the reasons for the recommended surgery, the risks, and the potential complications that may occur and give the Emergency Animal Clinic permission to perform the foregoing emergency procedure(s) or operation(s). I understand that during the performance of the foregoing emergency procedure(s) or operation(s), unforeseen conditions may be revealed that necessitate an extension of the foregoing procedure(s) or operation(s) than those set forth above. Therefore, I hereby consent to and authorize the performance of such procedure(s) or operation(s) as are necessary and desirable in the exercise of the veterinarian's professional judgment.

I have been advised as to the nature of the procedure(s), operation(s), and/or anesthesia and the risks involved. I realize that results cannot be guaranteed. I have read and understand this authorization and consent.
